APPLICATIONS

A photograph of a modern retail store interior. In the foreground, a black computer monitor sits on a stand at a white counter, with a keyboard in front of it. To the right of the monitor is a black handheld device. In the background, there are clothing racks with various items, including a brown jacket and a dark jacket. A large mirror on the right wall reflects the store's interior, showing more clothing racks and a doorway. The lighting is warm and ambient.

A technical line drawing of a mechanical assembly. A central vertical shaft is labeled 'J'. It has a horizontal arm extending from its upper part, which is labeled 'K'. The arm has a curved arrow indicating rotation. At the end of the arm is a component labeled 'K'. The shaft is mounted on a base with a circular flange. There are various other components and fasteners shown, including a bracket on the left and a complex assembly on the right.

Supported Tablets	13.3"-15.6"
